### Description

The Domino Business Center, class "B", provides a high level of service and comfort for tenants and guests of the center. The original concept of the Domino facade distinguishes it from other objects of a similar class, giving it special elegance and attractiveness. The windows of the upper floors and viewing platforms on the roof offer impressive views - a unique opportunity to discuss working issues in an informal setting or take a break in the open air without leaving the office space. The close proximity of the embankment, highway, interchanges and three metro stations will provide mobility to your business and a guaranteed solution to all transport issues. The business center has round-the-clock access, security and video surveillance. In the courtyard there is a secure surface parking for 70 parking spaces. Offices are equipped with centralized air conditioning and ventilation. The Domino Business Center is the best offer on Podil in the ratio of price and quality.
