Description

Business center "Renaissance" is a beautiful tsarist era building with 4.5m-high ceilings and lobby with balustrades, but modern infrastructure. The business center has its own underground parking (used as shelter) and has its own diesel generators. Located in the historical part of the city in the Shevchenko district, its location makes it possible to get anywhere in the city within a nick of time. BC can easily be called autonomous because it is equipped with its own electrical substation with independent heating and water heating. The infrastructure and surroundings of the BC include a large number of embassies, the shopping center Ukraina, the Radisson Blue Hotel, squares, restaurants and banks, as well as 24-hour ground and underground parking for 112 cars.
